"The collection of coins has not only become an infatuating and engrossing pursuit among thousands of persons of all ages and either sex, but out of it has grown up an extensive trade, furnishing the means of livelihood to numerous individuals in all our large cities. Prices have risen a hundred fold, in some cases almost incalculably; unreasonably; and speculation has been rife...

(from The American Journal of Numismatics, Vol. 1, No. 1, May 1866.)

OUR TERMS OF SALE

1. All coins are guaranteed genuine. I will replace or issue a refund for any coin found not to be genuine. This is a lifetime guarantee. Over ten years of business I have never had to make good on this promise. But I make it anyway for your protection.

2. All attributions are guaranteed correct. Also a lifetime guarantee. I will issue a refund or if available provide a replacement for any coin found to be mis-attributed.

3. A full thirty day return privilege is allowed on all purchases. Returns may be made for any reason, or no reason. My business depends on attracting repeat customers. It does neither of us any good for you to keep a coin with which you are not completely satisfied. I am confident that the overall quality and value of the material I offer here is second to none. This does not mean that you might not order a coin that fails to satisfy your personal taste or desire. It is even possible for me to have missed a defect or to have been optimistic about the grade. It can happen. But it is not my intention. I encourage you to use the thirty days as an approval period. Feel free to show your purchases to other knowledgeable EAC members. Get a second opinion. All sales are final after the thirty day period, though I will certainly consider an extension upon reasonable request.

4. Approval service is also available to established clients. Seven days inspection is allowed on approval service at which time the coin must be returned or funds remitted. Approval sales are considered final after the seven days. Extensions are available upon request. We also accept VISA and MASTERCARD.

5. All orders are sent postpaid.

6. Strict ANA and EAC guidelines are followed in grading.

In addition to strict ANA and EAC guidelines I have introduced "value" or "net" grading into my descriptions. Sharpness or technical grade according to ANA standards is fairly easy to describe with consistency. However most old copper coins have acquired defects over time that detract from the overall desirability of the coin. I describe these defects and deduct from the technical grade based on

their presence. As an example a coin might be described: "1805 S-267 VF20 Sharpness of VF30 with smooth brown surfaces, some light pinscratches where corrosion was removed at K1 reverse." Here is a coin VF30 by ANA standards but with scratches at one o'clock on the reverse. Plainly the coin would be more desirable were the scratches not present. I describe the defects and deduct ten points from the overall grade. The first grade listed represents the net or value grade. Clearly this is an art and elements of subjectivity are inevitable. Where there is no second grade listed It is my opinion that the net grade is the same as the sharpness grade. Perhaps not perfection but whatever marks present have been judged to be consistent with the technical grade of the coin and do not detract from the net grade. The intent is for you to have as close an idea as possible of the overall condition of the coin you may wish to purchase. No unpleasant surprises!

7. I attempt to give a rarity rating for each variety listed. These in large part reflect the current EAC rarity ratings as compiled by Jack Robinson's Copper Quotes. I also offer opinions relative to condition census ratings die state and condition rarity. These change constantly as new coins are discovered and reported. I attempt to use the latest data or information available. Still these ratings cannot be 100% accurate and remain a matter of opinion only. Having said this I can also say with confidence that more information and more research is available on Early Copper than any other area of American Numismatics. Large Cents have been actively collected and researched for more than one hundred years. One can therefore have a high degree of confidence in the general accuracy of current information. I urge all my clients to form the numismatic library necessary to allow them to make informed judgments and purchasing decisions. It is foolish to invest money in coins if you have not already invested in the books and other sources necessary to the full enjoyment of them.

8. I have yet to meet anyone who has bought coins merely as an investment who has realized a net return upon liquidation. I have, however, met numerous serious collectors, who having formed a discriminating collection over a period of years realized a substantial profit when their collection was ultimately sold. Most collectors find that the enjoyment, education, and friendships formed as a result of their collecting pursuits have been their greatest reward. It is much easier to lose money quickly than to make money quickly in rare coins. If you are not willing to undertake the educational process necessary to make well informed decisions regarding your collection you will almost certainly lose. Coin dealers are often more than willing to give investment advice. As my good friend Jack Robinson, (who's collection did very well for him when it was sold in 1989), likes to say. THINK ABOUT IT! When you ask a cat which canary to buy remember his first concern may not be how well it sings! There are many opportunities to do well financially in

rare coins. But as with any other medium of investment, success is the result of a combination of knowledge, good timing and the ability to wait for the right time to sell. Commit yourself to the process of becoming an educated collector and you stand a good chance of success.

Welcome to my March/April catalog. Some outstanding coins are offered. A beautiful minted 1857 Half Cent, several condition census level early dates including the Beckwith 1803 S-254. A nice run of middle and late dates are followed by an offering of civil war tokens. These are selections from the outstanding civil war token collection of Cindy Grellman. If you have ever thought of collecting this fascinating series this is a great opportunity to start. Many of these are semi-unique and finest known or near finest known specimens. Yet they are available for a small fraction of the cost of comparable Large or Indian cents. Our sale of the Joe Dooley collection in January was a great success. Prices realized are in the back. We are presently taking consignments for our upcoming sales including Colonials for our C4 convention sale tentatively scheduled for next October. Also note we have just received a shipment of 1997 early copper medals. One will be sent out free with each order from this catalog. Or you may order a complete set in copper, silver and golden bronze for \$25. See the description at the back of this catalog. I will be traveling extensively over the next few months. Look for me at the following; Baltimore March 6-9, Mich March 13-16, Mid Year ANA Cleveland March 19-22, Central States Indianapolis April 10-13. EAC Las Vegas April 17-20

- 1787 CONNECTICUT M.33.4-q R6 VF35 122.0 gns \$ 450.00
Tan and in an unusually high grade for this rare variety. Essentially glossy, but the surfaces are interrupted at points by thin striae and two or three small flaws, one partially obscuring the last digit of the date. Extremely hard to improve on for the variety.
- 1786 NEW JERSEY M.17-b F12 \$ 275.00
Olive and tan planchet. Basically smooth with some reverse scratches. Dramatically overstruck on a 1787 M.44-W.4 Connecticut. Date fully visible at K12 reverse. This is a double dated cent. Neat. Ex. Scott Barnes:19.

1787 NEW JERSEY M.46-e EF40 \$ 595.00
Though among the most common of New Jersey varieties die clashing almost always obscures all or part of the date depending on the die state. This coin is struck from the scarcer and desirable early state with a full crisp date, though heavy clashing remains in the fields as always. Alternating golden brown and dark olive brown. Lightly granular surfaces.

1787 NEW JERSEY M.56N R1 VF25 \$ 650.00
Choice tan with smooth glossy surfaces. Well centered and virtually mark free. Overstruck on a 1785 Connecticut copper with much undertype visible. SDB:84.

A Large Planchet Type. Smooth and relatively glossy light brown surfaces deepening slightly in the right hand fields. Bare minimum of contact marks with a few traces of reverse porosity. Pleasing.

1787 NEW JERSEY M.75-bb R4 AU50 143.3gns \$1325.00
An extraordinary example of this "Running Fox" variety. Actual sharpness is close to Mint State though with a value closer to EF due to the surfaces exhibiting even microscopic granularity. Toned a steely dark olive with a couple of light vertical scratches in front of the horse and no other problems. Typical die breaks with razor like clarity in the designs and no sign of true wear. Technically high in the condition census and possibly still in it even after detracting for the granularity. Ex. M & G 1/97:68.

1785 VERMONT R.2 LANDSCAPE R3 VG10 121.8gns. \$ 265.00
VERMONTS Type. Medium tan with surfaces that unusually smooth for a Landscape coin. While parts of the legends show weakness and the 5 of the date is faint, most of VERMONTS remains bold. Choice for the grade and type.

Medium chocolate and reddish tan. Smooth surfaces that show only the most microscopic surface roughness. Perfectly centered with all detail struck up and all legends complete. Vermont S variety. SDB:441.

1786 VERMONTENSIUM R7 VF25 \$ 950.00
VF30+ Medium brown. Surfaces smooth with some porosity on the reverse. Nicely centered on the obverse while the reverse is slightly off though all legends are visible. Ex. John Griffie:394.

CHOICE RYDER 6 VERMONTENSIUM LANDSCAPE

1786 VERMONT RR6 EF40 \$2200.00
Smooth light brown with glossy surfaces completely free of porosity. Date, plough, surface are completely sharp. There is one area of striking weakness K9 affecting MON obverse and some of the rays and CEM on the left side of the reverse. This is a lovely example of the landscape type.

Nice glossy medium brown with smooth surfaces. Normal die swelling. A nice example.

1795 WASHINGTON NORTH WALES HALFPENNY F15 \$ 235.00
Even the highest grade pieces display weak detail, generally grading is done by the quality of the surfaces which on this example is excellent; hard and glossy with a minimum of surface marks.

WASHINGTON SUCCESS TOKEN VF30 \$ 450.00
Even medium tan to brown. Problem free with great eye appeal.

1787 FUGIO N.19-M LOW R7 VG8 150.7 gns. \$ 365.00
A seldom seen variety. Both sides evenly but not deeply granular with the reverse the stronger side. The obverse is a mottled black and near tan, the reverse has virtually black fields with all raised points lighter, making for a dramatic contrast. Struck medal turn. From one of the most significant Fugio collections auctioned: Ex. Stack's 11/30/94:94 of the Hancock Collection. Lot ticket included.

1787 FUGIO N.4-E VF35 \$ 535.00
A deep olive brown with obverse highlights a bit lighter. Some fine granularity towards right of obverse. Perfectly centered and evenly struck, the reverse in particular retains a lot of flash which adds significant appeal to a darker coin. A small toned scrape inside reverse label starting at the top of the second E is fairly well hidden. Overall a nice example of a Club Ray Fugio.

SELECTIONS FROM:

THE CINDY GRELLMAN CIVIL WAR TOKEN COLLECTION

Cindy Grellman assembled, over a period of two decades, one of the most important CWT collections of our generation. Cindy has a true copper collector sense of color and surface, and a willingness to upgrade repeatedly, resulting in a collection of uniformly superb quality. Additionally, Cindy's collection is well over 90% complete by merchant and reverse die. Among collections dispersed over the past 30 years only the Fuld and Kuehneat collections had comparable quality and completeness. I have selected the following specimens for their variety and outstanding condition. Many are plated in key reference works, or are among the finest known examples of the variety. Can you imagine buying a finest known large cent for \$200? If you have ever thought of collecting Civil War Tokens this is a great opportunity to begin.

EAC CONVENTION IN LAS VEGAS
APRIL 17-20

BE THERE! or BE SQUARE!

Okay, I know many of you have seen movies like Casino, Leaving Las Vegas, Rain Man or even the just out National Lampoon's Las Vegas vacation. You may have seen Wayne Newton in concert. You might (and you know who you are!) have a slot machine downstairs in the game room. BUT this year the Early American Copper collectors convention is being held in Las Vegas April 17-20. You have to go! This might well be the best EAC convention ever. The convention is being managed by Al Boka and Jeff Gresser two long time EACers. I promise you they will do a fabulous job. When some friends got married this year they went to Las Vegas on their honeymoon who did we call to get last minute tickets to EFX ? Jeff. It's like Ghostbusters...who you gonna call..Jeff Gresser. The last convention was one of the most well attended conventions ever. There will be loads of activities. Educational forums. Literally thousands of Early Coppers of every description to choose from. Bob Grellman and I will be there. I'll have my biggest inventory of the year. We expect to have the Wes Rasmussen late dates ready for display. And if you get tired of collector coins you can always go into the casino and watch Jack Robinson calculate odds on four different numbers, the pass, come and hard eight bets at craps. Or Denis Loring put his actuarial skills to good use at Pai Gao. Or Mike George put his skills to work on ..uh ..what ever you want to call it(: The food will be great and almost for free, the rooms will be nice, the company will be the best. Airfares are now cheap!! Please come. You'll have a great time... One word of advice. If you do come. Remember there's no such thing as a free drink!

Chris
